Subject: RE: Hearing on Wednesday HB 198

I am a landowner affected by MATL's proposed transmission line. MATL is wanting to place poles that are not in the location I was told they were to be and now they have the take it or else

Attitude. MATL is not a public utility. It is an out of country entity that is not acting in good faith. I urge you to vote against HB 198 to protect Montana private property owners.

Thank you
John Blanchet
Dutton, MT.
